

Yamit E.L.I.

## Yamit E.L.I.

Yamit Europe BV is the European office of Yamit/ELI Filtration and water treatment. Next to their colleagues in Africa, China, South America and Australia, we are the European and Eastern European activity and support hub for Yamit/ELI activity. Auxill Netherlands plays an additional role.

**YAMIT E.L.I.** Water Treatment Systems, founded in 1985, is a leading provider of water treatment systems and water filter solutions in the international market, including Israel itself. The company has been an authority in providing water treatment systems and water filter solutions for Industry, the Public Sector and Agriculture.

Their research and development operations, staffed by professionals with over 150 combined years of experience, continuously seek innovative and cost-effective of water treatment systems and water filter solutions.

We develop, design and manufacture high quality water treatment systems and water filter solutions with a targeted focus on the need and requirement of our customers. We operate in an effective team process with our customers, a process which respects and incorporates our customers' business goals and requirements as well as their technical needs.

Their strategic vision encompasses an understanding of the critical role of the sale in drinking water in the world today. We recognize that over one billion people lack safe water and more than 5 million die every year from water-related disease.

Their approach by searching to industrial water & wastewater treatment solutions recognizes that operations efficiency and quality relies upon the quality and supply of water to production processes. They appreciate the new and energized role of industry in the environment and the responsibility which they take in these in participating in pollution reduction and control policies.
